Footnotes:
 1: Please place an 'X' in the relevant column. It is not expected that a candidate will register 'some' or higher for every item and it is certainly not a requirement in order to be considered for nomination. It is the overall combination and balance of the Board members' expertise that matters. In using the 'assessment scale':
 • **Not Applicable** = An area with nothing of particular note to offer.
 • **Some** = Familiar enough to be able to make a contribution to discussion.
 • **Strong** = Able to make a significant contribution to thinking and discussion.
 • **Very Strong** = Able to provide leadership and direction to thinking and discussion.
 2: Examples in support of and to illustrate the self-assessment rating. It is important to provide enough information to give the Nominations Committee members a good understanding of what you would bring to the Board. Therefore, more rather than less information is encouraged.
